LOCAL WAVES

D. E. Hemphill of Salt Lake City made a business trip to Heber this week and shook hands with a number of his acquaintances here.

In sending the CHRISTMAS WAVE by mail put on a two cent stamp, which is the postage price to all points in the United States, Canada, and Mexico.

John Winterose met with a painful accident Saturday by a fall while at work on the new mercantile building. He received a serious shaking up but is recovering.

John Crook's weather report on the past week is as follows: Max. temp. 44°, min. 5°; average max. 33°, min. 14°; snowfall 6 inches; precipitation 1/4 of an inch; sunshine 10%.

Student Life, the Wasatch County school paper, came out yesterday in double its former size—sixteen pages. It is a bright, newswy little paper and a credit to the faculty of the schools.

The two weeks old babe of Joseph E. D. Tomlinson died last Saturday. Funeral services were held at the residence Sunday and the body was interred at the Heber City cemetery.

Indian George, who has been doing time in the Wasatch county jail, has shaken the dust of Heber from his moccasins and returned to his Duchesne wigwam a wiser and, perhaps, a better man.

In making up the forms for this paper we put the name of Milton Jacob under the cut of Isaac Jacob's residence. This is the most serious error we have found in our make-up and feel very thankful to have escaped so easily.

The many friends of John Baird will be pleased to learn that he has so far recovered from his long and serious illness as to be out. He was up to Heber from Charleston Tuesday accompanied by his daughter, Mrs. Samuel McFee, with whom he is living this winter.

A stranger arrived at the home of Harman W. Cummings Tuesday night. The papa, grandma and other near relatives have variously estimated his weight from seven pounds to fifteen pounds. There will be a weighing bee as soon as the excitement is over.

A dispatch from Washington yesterday reads as follows: "Through the recommendation of Congressman Joseph Howell, the President appointed John A. Smith postmaster at

A distressing accident happened at Midway Monday afternoon resulting in the death of John Zweifel, Jr. He and his fellow workmen had just completed the mason work of the new Second Ward meeting house at Midway and were taking down the scaffold when he slipped and fell into the basement, a distance of about thirty feet. As a result his neck was broken and he was otherwise injured. He was taken home at once but died within an hour after the accident. A very impressive and sorrowful funeral service was held in the Ward house at 11 a. m. Wednesday. Those who addressed the large audience were Presidents Murdock and Clyde, Bishops Coleman and Probst, and Ex-Bishop Francum. The young man was about thirty years of age and unmarried. The greater part of his life has been spent in Midway where he is well and favorably known. His parents have the sympathy of a large circle of friends. It is only about four years since one of their sons met with a violent death in the great blow-up accident in the Daly West mine at Park City.

Children's Dance.

There will be a dance for the children on Christmas day at Turner's Opera House from 2 p. m. to 4 p. m. Admission 5 cents.

CURRENT CREEK COAL.

Miners and Teams Have Gone Over the Ridge to Open the Mines and Break the Road.

At last a move has been made to ward bringing coal from the Currant Creek mines. If the venture is a successful one, and there is no reason to doubt that it will be, the coal famine in this valley is not only broken but at an end.

The Wasatch Lumber Company, through Geo. A. Wootton, its manager, took the matter up this week and employed four men with teams to break the road and two miners to dig the coal. The expedition started out yesterday morning. The personal of the party are John Lloyd and John Davis, miners; Henry Baird, Wm. McMillan, H. L. Clegg, and Francis Moulton, teamsters, and Elisha Cummings as guide. Another squad of teams are expected to start Sunday morning and the pioneer company is expected home Sunday afternoon loaded with coal. Mr. Wootton has full charge of all arrangements and will issue permits to teamsters to get loads in such a way that there will be no loss of time by having to wait for the coal to be dug after reaching the mine. Those who go Sunday morning will get their coal free, after that the teamsters will pay the expense of mining.

The distance is about twenty five miles and it is said that the trip can be made in two days. It is thought that one team can bring 2500 pounds by doubling up two short hills, but as the trip has not yet been made this is only conjecture. One thing is certain and that is coal can be had from that source and those who are familiar with the route believe there is money in it for the freighter.

Lost:—One gray 4-year old horse branded on combined left shoulder liberal reward. H. P. McMULLIN

Samuel McF... with whom he is living this win

A stranger arrived at the home of Harman W. Cummings Tuesday night. The papa, grandma and other near relatives have variously estimated his weight from seven pounds to fifteen pounds. There will be a weighing bee as soon as the excitement is over.

A dispatch from Washington yesterday reads as follows: "Through the recommendation of Congressman Joseph Howell, the President appointed John A. Smith postmaster at Heber City." Mr. Smith has held the office for the past four years and his re-appointment settles the postmaster matter in Heber for the next four years, in all probability.

A very pleasant and enjoyable surprise party was given Patriarch John McDonald the other day, by his children and some of his immediate friends, in honor of his birthday anniversary. He reached the seventy-third mile stone on the journey of life December 12th, but his actions on the day on the party indicated an age of at least two score years younger.

The glass and other fixtures for the front of the big Mercantile store arrived this week and the carpenters are busy putting them together. The roof is now completed and in a short time the work of finishing the large building can all be done in-doors. The ground floor of this store is 100 feet by 150 feet and will be divided into compartments suitable for the different departments of the store.

Judge Booth was up from Provo Monday and held a short session of the District Court. In addition to other matters the case of Wanrodes, the well known Indian who was charged with a failure to appear as a witness when subpoenaed, was heard. The result was that he was fined \$10—just enough to cover the cost of bringing him in from the reservation. The money was paid and the defendant discharged.

Deep and crusted snow on the reservation is making some trouble for the flockmasters who are ranging their herds there this winter. J. O. Duke has started this way with his flock and has sent word to his partner to meet him at Soldier's Springs with hay. Other herds are said to be coming in for the purpose of going west for the winter. Those who have the largest interests on the reservation are not worrying as they have received no reports from their herds that would cause alarm.

Beginning with the first of January, under instructions from the acting postmaster-general, there will be some changes in the Heber post office that will be of general interest to the people of this city. The custom of printing coupons in magazine advertisements intended to be filled out by the reader and returned as first-class mail matter has so grown that the postoffice department has issued an order against the sending of periodicals containing such coupon advertisements as second-class matter, such being properly in the third class, and requiring 1-cent postage for each two ounces or fraction thereof. Call boxes are reduced to 20 cents a quarter, combinations and other small lock-boxes 35 cents and the larger lock-boxes 45 cents, payable in advance.

An Up-to-date Candy Store.

The Heber Confectionery has received the largest shipment of candy ever consigned to Wasatch County.

Their Christmas stock contains over 100 different kinds and flavors of candy, all of which is the best in its class to be had, ranging in price from 12½ cents to 80 cents per lb. Their Xmas boxes, box stationery, oranges, bananas, lemons, are of the highest quality obtainable. They also sell the famous "Jesco" nuts which recommend themselves to the critic buyers of the world. Hylton's famous stews and soups are too well known to need recommendations.

Easy Way to Get Rid of Stumps.

A method of getting rid of stumps which has been highly recommended, and which to be effective should be done now, is as follows:

Bore a hole one or two inches in diameter and about 18 inches deep into the center of the stump. Then put into this hole one or two ounces of saltpeter. Fill the hole with water and plug it up. In the spring take out the plug, pour in about one-half gallon of kerosene oil and light it. The stump will smolder away to the very extremities of the roots, leaving nothing but the ashes.—Farming.

WAS BEYOND THE PALE.

The Reason Chaucer Is Not in Society Now.

A friend of James Whitcomb Riley tells of an occasion when the humorist, who is as a rule, extremely averse to social functions, was induced to attend a "literary" dinner in Indianapolis given in honor of a novelist of that city.

Riley had been told off to take in to dinner the sister of his host, an excellent woman, though anything but "literary."

The conversation touching upon the beauties of Chaucer, about whom a certain set of the city was then cultivating a fad, a spirited discussion ensued, during which the bewildered sister caught from time to time only the name "Chaucer."

At last she whispered to Riley: "Who is this Mr. Chaucer they're talking about so much? Is he very popular in society?"

"Madam," solemnly responded Riley, "that man did something that forever shuts him out of society!"

"Heavens!" exclaimed the worthy dame; "and what was that?"

"He died several hundred years ago," said Riley.
